TS-420 TopMastic Crack & Spot Repair is available in 5 & 3.5 gallon containers.

TEST PROPERTY	TEST VALUE
Appearance	Paste
Density	11.68 - 12.18 pounds per gal.
Weight per Gallon	10.60 - 11.01 lbs per gallon
Viscosity KU	130,000 - 150,000 cP
Solids by Weight	68 - 72%
pH	7 - 9
Packaging	3.5 & 5 gal

Application:

DO NOT MIX. DO NOT THIN.

SURFACE PREP:

All surfaces must be sound and free of frost, dirt, grease, oil, loose nails & screws, sharp protrusions, or other contaminants that will hinder the adhesion of the membrane installation. Clean loose dust and dirt from the surface by brushing or wiping with a clean, dry cloth brush or broom.

APPLICATION:

The waterproofing system requires cracks and critical points to be treated with TopMastic high-performance flexible acrylic cement. Use a spatula or brush to apply TopMastic to fill in small cracks. For critical points such as bevels, parapets, joints between tiles, projecting pipes, skylight bases, antennas, water tanks, downpipes, etc., perfectly patch with TopMastic. Cover the critical area with super reinforcement fabric and apply a coat of Mastic, using a spatula or hard bristle brush, to the fabric. Let dry for 1 to 3 hours. During this stage, you can do the perimeter banding in the same way (acrylic cement-super reinforcement fabric).

The amount to be applied will depend on the surface and its roughness; depth and porosity. See performance table. For cracks wider than 1/2 inch, is recommended to review the surface in order to detect defects in the construction before continuing with the roof repair.

Safety:

Do not take internally. Keep out of reach of children. Avoid contact with skin and eyes. Use hand and eye protection when using this product. Wash with soap and water after contact with skin. If eye-contact occurs rinse with clean water and seek medical advice if symptoms continue.

Maintenance:

The life of the roof may be extended by regularly scheduled maintenance. A roof should typically be inspected at least twice a year. The roof immediately needs to be inspected following severe weather and extraordinary maintenance on roof-mounted equipment.

Limited Warranty Information:

Kool Coats offers a 10-20 year Material Warranty. A 10-20 Year Labor and Material Warranty is available for a fee. For warranty details contact your Kool Coats representative.
