- **Roll or Spray**

**100%  
WATERPROOF**

**1200%  
ELONGATION**

## BENEFITS OF USING RUBBER ROOF COATING:

- Expands and contracts to resist cracking and peeling
- Flows into cracks and crevices as a liquid
- Sets as a durable rubber to seal leaks
- Creates impervious membrane
- Up to 1200% Elastomeric

Our cutting-edge rubber-based coatings are designed to revolutionize the way roofs are protected. Introducing our remarkable 100% waterproof and 1200% elastic rubber basecoat. With its exceptional sealing properties, it effectively safeguards any existing roof from the elements while flexing to prevent unsightly cracks and peeling. This robust basecoat creates an impenetrable membrane, ensuring your roof remains impervious to even the most extreme weather conditions. But we didn't stop there. You'll enjoy unparalleled waterproofing, enhanced durability, and substantial savings. Trust Kool Coats to provide the ultimate solution for your commercial roof, delivering unmatched protection and efficiency like never before.
