98%
REFLECTIVE

750%
ELONGATION

BENEFITS OF USING RUBBERIZED-ACRYLIC ROOF COATING:

- Expands and contracts to resist cracking and peeling
- Flows into cracks and crevices as a liquid
- Stops water leaks fast
- Formulated to resist mold and mildew
- Extends roof life

Our topcoat innovation is the rubberized-acrylic topcoat, an essential companion to the basecoat. This topcoat boasts an incredible 750% elastomeric feature, guaranteeing it stays crack-free and peel-resistant for years to come. On top of that, its impressive 98% reflectivity significantly reduces air conditioning costs, making it a truly energy-efficient choice. By combining these two extraordinary products, you'll enjoy unparalleled waterproofing, enhanced durability, and substantial savings. Trust Kool Coats to provide the ultimate solution for your commercial roof, delivering unmatched protection and efficiency like never before.
