ACRYLIC WATERPROOFING SERIES

## PROTEK 20

HIGH PERFORMANCE ACRYLIC SILICONE HYBRID WATERPROOFING

- WATERPROOF
- PONDING TEMPERANCE
- EASY TO APPLY
- HIGHLY RESISTANT
- REFLECTIVE
- 20YEAR WARRANTY
- QUICK DRYING

### WHAT IS PROTEK 20?

ProTek 20 is a silicone hybrid waterproofing, water-based acrylic designed to maximize long-term resistance to humidity, rain and flooding. It can be applied to regular performance to achieve up to 20 years warranty, or apply to a high performance with a 10-year warranty. Used for waterproofing of roofs and concrete slabs, mortar, fiber cement, galvanized sheet roofs, etc.

- High performance. Extra duration.
- Permanent hydrophobicity
- Ready to use. Ideal consistency for easy application.
- Greater tolerance for temporarily accumulating water.
- Highly resistant to weathering, UV rays and fungi
- Water based. Low VOCs.
- Cool roofing Energy saving..
