PRO TIER 10

ACRYLIC ELASTOMERIC ROOF COATING

- 300% ELONGATION
- ENVIRONMENTALLY FRIENDLY
- EASY TO APPLY
- EXCLUSIVE UV SHIELD
- 10 YEAR WARRANTY
- PREVENTS LEAKS

WHAT IS PRO TIER 10?

ProTier10 is an acrylic resin based elastomeric roof coating. Highly reflective, environmental friendly, common structural movement resistant, prevents moisture filtrations and leaks. It adheres to the most common construction materials, such as concrete, galvanized sheet metal, fibrocement boards, bricks, wood, and ducts.

- Easy to apply.
- Highly reflective with exclusive UV Shield to preserve
- Environmentally friendly.
- Gives points for LEED certification
- Resistant to common structural movement
